

The Optimism of Uncertainty

"Revolutionary change does not come as one cataclysmic moment (beware of such moments!) but as an endless succession of surprises, moving zigzag toward a more decent society.

We don't have to engage in grand, heroic actions to participate in the process of change. Small acts, when multiplied by millions of people, can transform the world. Even when we don't "win," there is fun and fulfillment in the fact that we have been involved, with other good people, in something worthwhile.

We need hope. An optimist isn't necessarily a blithe, slightly sappy whistler in the dark of our time. To be hopeful in bad times is not just foolishly romantic. It is based on the fact that human history is a history not only of cruelty but also of compassion, sacrifice, courage, kindness.

What we choose to emphasize in this complex history will determine our lives. If we see only the worst, it destroys our capacity to do something. If we remember those times and places--and there are so many--where people have behaved magnificently, this gives us the energy to act, and at least the possibility of sending this spinning top of a world in a different direction.

And if we do act, in however small a way, we don't have to wait for some grand utopian future. The future is an infinite succession of presents, and to live now as we think human beings should live, in defiance of all that is bad around us, is itself a marvelous victory."

Excerpt from Howard Zinn's THE OPTIMISM OF UNCERTAINTY (NOVEMBER 06, 2004) Adapted from "The Impossible Will Take a Little While: A Citizen's Guide to Hope in a Time of Fear", edited by Paul Rogat Loeb.
